OF CULTURE) (KUMARI SELFA): (a) to (c) The Government of India has recently approved the establishment of an Indian Institute of Management at Indore (Madhya Pradesh). Necessary action for operationalising the Institute has already been initiated. There is no proposal to establish an Indian Institute of Technology in the country.

New Strategy for Fertilizer Industry

1292. SHRI IQBAL SINGH: Will the Minister of CHEMICALS & FERTILISERS be pleased to state:

(a) whether Government have formulated any new strategy for fertilizer industry in the country particularly in the State of Punjab to benefit the farmers;

(b) if so, the details thereof; and

(c) if not, the reasons therefor?

THE MINISTER OF CHEMICALS AND FERTILISERS (SHRI RAM LAKHAN SINGH YADAV): (a) to (c) It has been the policy of the Government to ensure availability of fertilisers at reasonable prices. Accordingly, urea, which constitutes the bulk of the consumption of fertilisers, has been retained under the statutory price, movement and distribution controls. The availability of urea is ensured as per the allocation made under the Essential Commodities Act, 1955 and supplies to the farmers are made at a heavily subsidised price. In order to ensure that there is no shortage of urea, efforts are made to maximise the indigenous production and the gap between indigenous availability and demand, if any, is met by imports. For the current Rabi season, an allocation of 10.67 lakh metric tonnes has been made for the State of Punjab under the provisions of the Fertiliser (Control) Order, 1985 framed under the Essential Commodities Act, 1955.

As regards the decontrolled phosphatic and potassic fertilisers, in order to cushion the impact of the increase in their prices after decontrol a special concession of Rs. 1000/- per tonne of imported MOP and indigenous DAP and a proportionate concession on various complexes and Single Super Phosphate (SSP) have been extended for the fourth year in succession. The availability of decontrolled fertilisers has also been ameliorated by the measures taken to encourage the indigenous production of Phosphatic fertilisers and the decimalization of the imports of phosphatic and potassic fertilisers. The overall supply position of decontrolled fertilisers is quite comfortable throughout the country.

Progress of Campaign under Univcrsalisation of Elementary Education

1293. SHRI B.K. HARIPRASAD: Will the Minister of HUMAN RESOURCE DEVELOPMENT be pleased to state:

(a) the progress of campaign under the Univcrsalisation of Elementary Education (UEE) and whether Distt. Primary Education Programme (DPEP) target under the 8th Plan has been achieved and if so, how many districts have been covered so far against a target of 100 districts;

(b) the progress made under the National Literacy Mission; add

(c) whether Government would consider enhancing the outlay for education in successive budgets as presently the overseas donations from voluntary agencies to Indian NGOS far exceed our budgetary allocations on primary education?
